FRZ34BIT Built-in Freezer

No Frost

DIMENSIONS

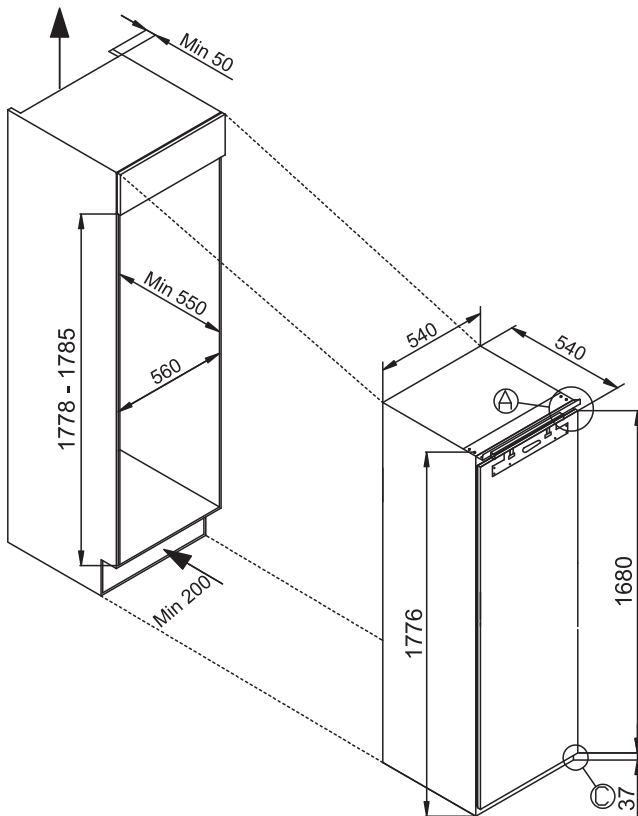

H: 1776 mm
W: 540 mm
D: 540 mm

FEATURES

Freezing capacity / 24h: 9kg / 24h
Max storage time by power failure: 11h
Freezer compartment star rating: ****
Kind of coolant: R600a
Foaming components: C-P
Control system: E
Temperature range: <-18°C
Freezer drawers: 7
Open door alarm
Built-in touch panel

TECHNICAL INFORMATION

Energy efficiency class: A++
Annual energy consumption: 232 kWh/annum
Climate class: T
Net capacity: 200 L
Net weight: 58 kg
Max noise level: 38 dB(A)
Power supply voltage: 220-240V~
Frequency: 50 Hz / 60 Hz
Rated current: 0.8 A
Power Load: 85W

FINISH

White

SKU: IT0022689

FRZ34BIT
Built-in Freezer

No Frost | SKU: IT0022689

CYCLING METHOD

- There must be an effective ventilation shaft of at least 200 cm² per appliance at the air inlet Fig (A) and outlet Fig (B) vent.
- The principle applies that the larger the ventilation shaft, the more energy-saving the operation of the appliances.

- The upper ventilation shaft can either be positioned directly above the appliance with an optional ventilation grille Fig (C) close to the ceiling above the unit Fig (D) or as an air outlet opening in a false ceiling Fig (E).

	The instructions apply to several models. Only carry out this step if it is relevant for your appliance.
	Choose between the alternatives given.
	Loosen the screws only, do not undo them all the way.
	Check the screws and tighten if necessary.
